

FLOSURE CHAMPION
SOFTENING + FILTRATION

**WATER
MADE FOR
COMFORT**

TWICE THE TREATMENT ONE SMART CHOICE

When your water has multiple issues, you need a product that can do more! Our combination water softener with carbon filter is your answer.

The unique design delivers all the comfort of soft water while eliminating harsh chlorine from municipal water. From water test to delivery to installation, we handle it all while you enjoy the benefits!

PREVENTS DAMAGE
Protects plumbing and appliances

SAVES MONEY
Spend less on cleaning supplies and moisturizers

FEELS GREAT
Gentle on skin, hair, and fabrics

EASY TO USE
Automatically adjusts to fit your lifestyle

WHAT IS CITY WATER

Municipalities provide a water treatment process to ensure the water supplied to your home is safe to drink. This includes adding chlorine to prevent bacteria growth. Unfortunately, chlorine also adds a bad taste and smell to your water, and can dry out your skin.

During the process, hard water minerals remain as they don't pose a health risk. But, it can be irritating and expensive to live with long term.

Our efficient combination system can solve both of these issues in one sleek solution.

MEET THE FLOSURE CHAMPION

Our most advanced water softener is combined with carbon filtration and technology to make maintaining your water quality simple.
