

**YOUR HEALTH  
RELIES ON  
YOUR WATER**

## MULTI-STAGE FILTRATION YOU CAN TRUST

Your tap water goes through a lot before it reaches your glass and not all of it is something you want your family drinking. The MVP is our advanced reverse osmosis (RO) system, third-party certified to reduce contaminants that compromise the safety, taste, and quality of your drinking water.

The MVP delivers better than bottled water quality every day. Because your family deserves nothing less than the best.

### HIGH QUALITY

Membrane technology filters at the molecular level

### SAVES MONEY

Spend less on bottled water and beverages

### TASTES GREAT

Removes harsh flavors and odors

### EASY TO USE

Filter change light helps provide reminders

# WHY FILTER DRINKING WATER

The water coming out of your tap travels a long way picking up dissolved contaminants, heavy metals, and chemicals along the way that standard filtration isn't designed to handle.

Long-term consumption of contaminants like lead, nitrates, and arsenic have been linked to serious health concerns. These all can't be seen or smelled, so a certified filter is the only way to trust it has been removed.

From the coffee you brew to the soup you make for dinner, the quality of the water you consume is the most important part of your day.

## MEET THE FLOSURE MVP

Top-of-the-line filtration technology creates the best drinking water that will keep you coming back for more.

Drink confidently with  
the *Most Valuable Purifier!*

## Start Enjoying Today!

Purified water isn't a luxury, it's the foundation of a healthy lifestyle. Here's what you can expect after adding The MVP to your home:

- **Ditch the bottled water** and save big on your grocery bill
- **Reduce your family's exposure** to unsafe contaminants
- **Better tasting coffee, tea, and beverages** made with water straight from the tap
- **Cook with confidence** knowing your rice, pasta, soups, and more aren't absorbing contaminants
- **Real-time quality monitoring** with built in cartridge replacement reminder light

Tested and certified by NSF International against NSF/ANSI Standard 58 for the reduction of the claims specified on the Performance Data Sheet.
