

FLOSURE SPARTAN
SOFTENING

**START EVERY
DAY WITH
SOFT WATER**

INVEST IN SOFTNESS TO IMPROVE YOUR LIFE

Over 85% of American households struggle with the damaging effects of hard water – but you don't have to! Upgrade your home with one simple solution.

An efficient water softener is the key to high quality water and more comfortable living. From water test to delivery to installation, we handle it all while you enjoy the benefits!

PREVENTS DAMAGE
Protects plumbing and
appliances

SAVES MONEY
Spend less on cleaning
supplies and moisturizers

FEELS GREAT
Gentle on skin, hair,
and fabrics

EASY TO USE
Automatically adjusts
to fit your lifestyle

WHAT IS HARD WATER

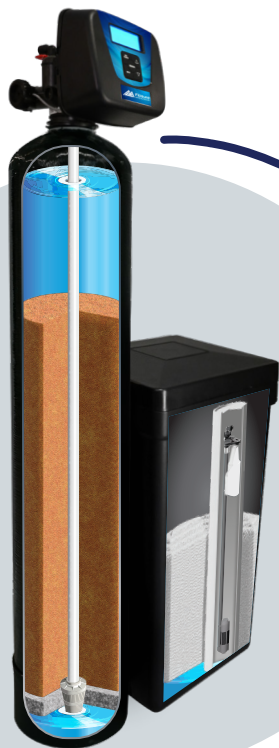

A water supply that passes through bedrock will pick up dissolved calcium and magnesium. These added minerals are what makes the water "hard."

Over time, the minerals accumulate on everything the water touches. Towels become rough, dishes are cloudy, and heating elements build up scale deposits.

The calcium also restricts soap's ability to clean. The harder your water is, the more shampoos and detergents you have to use to be effective.

MEET THE FLOSURE SPARTAN

Our most advanced water softener includes technology to make maintaining your water quality a breeze.

● **2 Sizes Available**
Customized for optimal efficiency

● **Salt Monitor**
Available feature to notify when salt levels are low

● **Built to Last**
With proper use, your water softener will last for years

● **Low Maintenance**
Automatic regeneration based on your usage, just add salt

● **Made in the U.S.A.** 
Homegrown quality and service

Enjoy the soft water life
with the *Spartan!*
